

## Canadian Food Inspection Agency Establishes Primary Control Zones and Movement Permitting Process

April 5, 2022

In response to the presence of Highly Pathogenic Avian Influenza (HPAI), the Canadian Food Inspection Agency (CFIA) has now established [Primary Control Zones 1 and 2](#) to control risks associated with movement of poultry and poultry products moving in, out and/or through these areas. The CFIA has now posted the [movement control permissions](#). Please access this information to determine which type of permit you require.

### Specific Permits

Anyone requiring specific permits for immediate movement should reach out to CFIA by calling 519-953-6658, 8 am to 6 pm (EST), or email: [cfia.ontmovementlicandpermitsdeplacementlicenceetpermis.acia@inspection.gc.ca](mailto:cfia.ontmovementlicandpermitsdeplacementlicenceetpermis.acia@inspection.gc.ca). Please note that the permitting line is experiencing a high volume of calls at this time.

### General Permits

The [General Permit](#) must be filled out with the specifics of the movement and a copy must be kept with each movement of the commodity. *(Note: The recommended browser is Internet Explorer; alternatively try downloading the file first and then opening.)*

### Daily HPAI Update Series

We also remind you that the Feather Board Command Centre (FBCC) continues to offer the Daily HPAI Update Series, held daily at 12:00 noon.

The Daily HPAI Update Series is designed for farmers who are in the zone(s) and industry personnel that conduct business within/through the zone(s) to receive the latest information from Canadian Food Inspection Agency (CFIA) and the Feather Board Command Centre (FBCC).

The Daily HPAI Update Series will be held via Zoom, using the login coordinates below. While anyone is welcome to attend, FBCC is requesting that participants give priority to farmers and industry personnel who are within the zone(s) during the question-and-answer period.
